4.0 Other

- J Davis had previously raised the issue of an inconsistency in the EBSS rules (21 & 26) re faulty electronic clock. It was agreed at the last meeting that if an electronic clock cannot produce a result printout, then that clock will not receive a reading. VRPU rules have been amended to suit this.
- Concern was raised over the length of time it is taking to obtain the Rota vaccine. A Spiliopolis to review forming a subcommittee to push along.
