# INTRODUCTION

Over the last few years I have been breeding some very high quality stock and race Pigeons. I have paid top money for some of these pigeons ( \$3,000 and \$4,000 each in some cases).

I have put a limited number out to race in One Loft Races and some to flyers in Melbourne, but only in the top money races.

I do believe I am competing against the best flyers and pigeons in the country and more than winning my fair share.

I have also been putting quite a few in the Stock Loft, in a lot of cases brothers and sisters to the winners and I am unable to breed off all of them under the circumstances.

I will be offering them or putting them up for auction as 1, 2 and 3 year olds.

I have been in the pigeon business a long time and it has taken me a long time to breed pigeons of this quality that I am putting up for auction.

The only medication I use is Sanycheck, with natural products & garlic oil. I do not vaccinate for anything. They are all in top condition for breeding.

When I breed most pairs are in their own separate large compartments, NOT BOXES! I consider this to be most important if you are going to put their young in the Stock Loft, so that when you are buying a pigeon at my auction you can be assured you are getting the right one and that it is what we all want.

The reason I don't vaccinate for Roto or PMV is because no-one can tell me what effect (if any) it will have on the pigeons long term health and whether it will affect the breeding and reproductive ability of the pigeon.

PS I have given one shot of PMV vaccination to all pigeons in this auction.

## **I HOPE TO SEE YOU AT THE AUCTION.**

## REFERENCE D

Red Checker Cock 05.258 **The Red Baron** Stichelbaut

Producer of producers. 14 years old and fills every egg. I never realised the potential of 258 until a few years ago. Very inbred. When paired to other Stichelbauts they were OK as producers but when out crossed they were outstanding producers. They come through any kind of race conditions.

One daughter Mealy pied AUST 16.10407 bred winners to three different cocks, one of 10407 **Karan** won 7th Open Wilcannia \$100,000 Race Melbourne 678 km, 816 birds, only 36 birds home on the second day. One of the worst race days on record. When **Karan** landed at 7.22pm she did not look as if she had been out of the loft. She looked that good!

*Raced by Gary Church VRPU*

Another raced by Haider Bros PRV 16.452 won 2nd club, 6th Fed. Very hard race. 1100mpm and 2nd bird home at 600 mile 45th Fed.

The next year raced another hen of 10407, PRV 17.1037. Raced in the \$100,000 Race, homed on the third day. 1037 took 26th Fed Rankin Springs 470km and then Went on to race in the 600 mile race. First bird home second day. Greg Agius from Coffs harbour topped the fed with grand daughter of 258.

A daughter of 258 was raced by John Goodwin in Melbourne. 1237 winning right through to 600 miles and became a very good producer of winning pigeons.

258 is also the grandsire of **Irish Pride** 2nd GC 50,000. Should have won by 30 seconds but did not go through trap. **Irish Pride's** mother AUST 11.3022 D C Fly is also the granddam of **Blue Caviar** 5th GC 50,000 and **Bushels** PRF 15.8181. 5th GC 50,000 bred down off 258 sister. There are others such as **Philomena** AUST 17.172 won 23rd 680km GC 50,000 & 9th Ace Pigeon 2018.

These pigeons are not just in Club racing, they are racing against the best flyers in Australia in Open races.

Blue Check Cock AUST 09.208 Known as the **Charity Cock**.

Hereman – Ceuster Olympiad

A few of his young were sold off and they did extremely well. Many Federation Winners were bred off 208 children in Victoria. Unfortunately I don't have permission to mention their names. It is well known, just ask Gary Church or John Share in Melbourne as they know the full story. Any pigeon off 208 is a Very valuable pigeon and a breeder of winners.

The Grizzle Pigeons (Snowy Ward). All of the original blood line, no crosses. They  
are predominantly hard day, long distance pigeons and have proved that for a lot of  
flyers that have obtained them. The old time flyers always said the Ward Grizzles  
are not Snowflake pigeons. They excel in headwinds and all day and 2 day races.

To race the Grizzles, they perform better when crossed. My choice is to the  
Stichelbauts. The only added pigeons to the Grizzles are two Checkers purchased  
from Bob Appleby who in turn purchased them from Kevin Boyce who raced the Ward

off two Federation winners Cock IHPS 03.520 1st Fed Bermagui & Grizzle hen IHPS  
04.337 1st Club by 13 minutes, 1st Ring Race, 1st Fed Combined from Orbost.

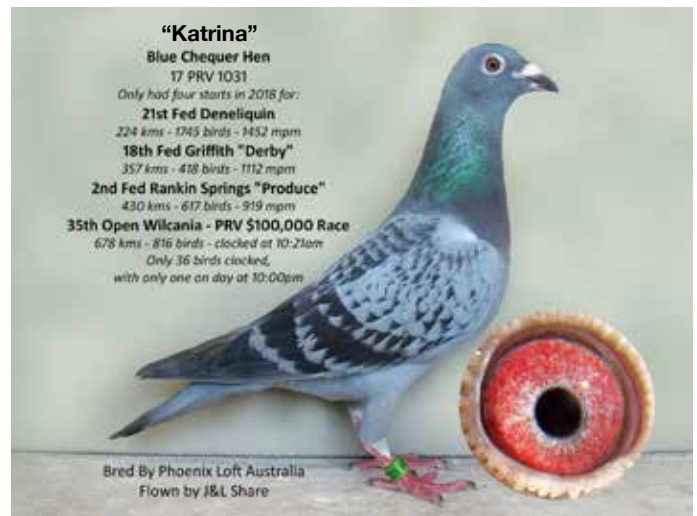

The second one is a Blue Checker Hen IHPS 07.1332, her sire BC IHPS 02.1341  
won a hard Ballina all day race 1st FRP Fed. 1341 attracted the highest price paid in  
Kevin Boyce's Clearance Auction.

These two hens bred winner after winner for Bob Appleby from the first race to the very  
last race in all conditions. Many flyers knew about these two hens, they were all waiting  
to purchase them when Bob passed away. I was trying to purchase them for over 3  
years and I finally got them for a large price. There are quite a number of their progeny  
in the auction. Highly recommended if you want to win the long and hard races.

Flyers who have done well with my Ward Grizzles are Brad Philips (WA) & John  
Collins (Toowoomba). Patrick Ketchell (QLD) won 2nd Breeders Plate 2016, 3rd bird  
home in 5 Bird National 2017, 3rd Fed, equal first bird home to get, 5th Moonie 270km,  
16th fed 560km in 2017, 12th Fed 220km & 7th Fed 450km 2018.

There are quite a few flyers that purchased direct from Kevin Boyce's Auction that  
have also done well with the Ward Grizzles as well.

I have not put many out to race myself. I put one in the \$100,000 race in Melbourne with Brett Evans and was clocked but just out of a prize. There were not many homeas we all know the hardest race on record is Victoria. I have spent many years putting these Ward Grizzles together and the only pigeons put into the family are performed pigeons that are the same family. The Grizzles in the auction are the result of many years of selective breeding. They handle perfectly. They look very nice and you can count on them to do the job.

208 children have bred many Federation winners in Melbourne when paired to the Jooza hen. A very important hen in the Hereman Ceuster line. 1105 has the Jooza hen in his Pedigree 3 times & Sampson and will develop into a magnificent cock and I am sure will go on to breed Fed winners.

*A very good investment in my opinion and I am sure others will agree.*

The Ravens are the main cross in my breeding. They are good 400 & 500 mile pigeons.

Tough and reliable. They don't get sick and stand up to the Roto virus very well.

Blue Check Pde cock WPF 15.12306 6th Open National Melbourne. Bred by Phoenix Lofts & raced by Simon Grech. Simon had a bad outbreak of Roto and 12306 did not even get sick.

This is typical of the Ravens wherever they go. There are a number of Ravens in this auction.

Bred various ways, all closely related. *In my opinion they are a must HAVE!*
