Testimony:

I first met Karl in 2015 when he was introduced to me by a family friend saying that he wanted to start racing pigeons and since then we have become good friends

Since then, Karl has purchased some fantastic bloodlines, some of these birds have already been proven on the race track and in the stock loft from the owners that he purchased them from, and others have been specifically bred for stock. Money has not been issue for Karl to ensure that he obtained the best!

A few years back Karl was not racing and he asked me if I wanted to borrow any pigeon to breed from I selected a BCH that was rung SA . This pigeon was bred by Jack Vanderlinden and sold to Karl I bred 6 youngsters off this hen and I mated her to a Jansen Vanloon Cock. I lost one youngster in a difficult toss and out of the 5 youngsters that remained, I clocked 4 of them to be placed in the fed. One hen gained 1st Fed Morgan 400 miles in a headwind fly which I won by half an hour and this hen was also equal 4th fed 240 miles. Another one gained 17th Fed 180 miles. Another one gained 10th Fed in the produce 300 miles and another one a cock landed with my Leo Fyffe memorial Fed winner when I won the fed and gained 1st Fed 240 miles.

I also bred a pair of youngsters for stock off this hen of Karls and mated her to a Hereman Ceusters Cock that has been a Prolific producer for me. One of the hens bred for stock has already started to show potential of being a top producer by consistently breeding early and leading birds in the last 2 years from tosses/short races arranged by our VRPU Federation as result of not being able to race as a result of Covid 19

It's a shame that because of family commitments Karl wont be able to use and race off these birds but I'm sure one day we will see him return and race pigeons again

I have seen and handled the quality of the birds that Karl has for sale and would highly recommend them to anyone that is already an established flyer or whether they are starting off in the sport. I believe they will have an immediate impact in any loft!

Yours Truly

John Floros
